PRESIDENT DONS FIGHTING TOGS

Taft Bitterly Denounces Former President Roosevelt.

REMARKS BRISTLE WITH COUNTER CHARGES

Says Colonel Has Failed to Live Up to Square Deal.

Boston, April 26.—President Taft donned his fighting clothes, abandoned his policy of silence under the attacks that Colonel Theodore Roosevelt has made upon him and upon his administration, for the first time since Mr. Roosevelt announced his candidacy, launched into a bitter denunciation of the former president.

"From the time Mr. Taft entered Massachusetts and made his first speech at Springfield he hammered away at Colonel Roosevelt. The president made close to a dozen speeches, many of them extended, the rest only a few words in length.

In all he made it clear that he is unalterably opposed to Mr. Roosevelt; that he saw disaster in a third term in the White House for any man and that he did not believe Colonel Roosevelt had given him a "square deal."

He spoke to good sized crowds in all the cities where he made set speeches and at the towns and villages where his train stopped briefly the people flocked around his private car and listened with close attention.

The president spoke at Springfield and Palmer, twice in Worcester and at Natick, South Framingham and several smaller towns.

Seems Reluctant at First.

In the beginning he seemed to utter his attack on Colonel Roosevelt with reluctance.

"This wrenches my soul," he said once.

As the day wore on, however, and he made speech after speech in which he denounced Mr. Roosevelt again and again Mr. Taft grew more aggressive in manner, emphasized his words with gestures and apparently laid aside any feeling of regret he may have felt at this evidence that the long friendship with his former chief was broken.

His principal Boston address was delivered in the arena to a large crowd, but before retiring to his private car he spoke briefly to an "overflow" meeting in Symphony hall. His speech in the arena was delivered from manuscript, prepared during the last few days in Washington, carefully gone over by members of his cabinet and containing a detailed answer to many of Mr. Roosevelt's charges.

Mr. Taft's speech bristled with counter charges against his predecessor in the White House. He declared that Mr. Roosevelt had wilfully misrepresented him, had falsely distorted some of his public utterances, had failed to live up to his policy of a square deal and had violated a solemn promise to the American people not to be a candidate for a third term.

"That promise and his treatment of it," said Mr. Taft, "only throw an informing light on the value that ought now to be attached to any promise of this kind he may make for the future."

Colonel Seeks Life Term.

Declaring that Mr. Roosevelt ought not to be selected as a candidate of any party Mr. Taft said the former president might now be paying the way, if successful in the present campaign, to remain the chief executive of the nation for as many terms as his natural life would permit.

"If he is necessary now to the government, why not later?" asked the president, and continued:

"One who so lightly regards constitutional principles and especially the independence of the judiciary, one who is naturally impatient of legal restraints and of due legal procedure, and who has so misunderstood what liberty regulated by law is, could not safely be entrusted with successive presidential terms. I say this sorrowfully, but I say it with the full conviction of its truth."

Mr. Taft referred to some of Mr. Roosevelt's charges against him as "the loose and vague indictment of one who does not know and who depends only upon second hand information for his statement."

The president said that his speech was one of the most painful duties of his life, that it was in response to an obligation that he owed to the Republican party which selected him as its candidate and to the American people who elected him president.

TRAIN BLOWN FROM TRACK

Twenty-nine Persons Injured on Union Pacific.

Omaha, April 26.—Twenty-nine persons were injured, one of them, James Davis, perhaps fatally, when a high wind struck Union Pacific passenger train No. 35 one mile west of North Loup, Neb. The entire train, the engine excepted, was blown from the track and all the cars overturned.

A mile of telegraph line was blown down, cutting off direct communication with larger outside cities and preventing a list of the casualties being sent out for several hours after the train was wrecked.

TWO LOSE LIVES IN FLAMES

Fire Practically Wipes Out South Dakota Town.

Aberdeen, S. D., April 26.—Two people are dead and another seriously burned as the result of a fire which practically wiped out the town of Seneca in Faulk county. Cora Kelly, fifteen years old, was burned to death, and her mother died an hour later. Ellison Smith was seriously burned, but will recover.

The fire was caused by the explosion of a gasoline stove in the Erickson hotel, which was destroyed, together with the cement block owned by Smith and Clyde. The Condit barber shop and the George B. Well company's general store was damaged. The loss is more than \$20,000.

TORNADO STRIKES DULUTH

Small Twister Damages Many Structures in Suburb.

Duluth, April 26.—A small tornado hit New Duluth, a suburb, partly wrecking many buildings, demolishing the electric light plant and leaving the place in darkness. Bricks from wrecked chimneys flew through the air and many had narrow escapes.

Two funnel shaped clouds joined just west of the town and the twister dashed down the main street. Floods of rain followed it.

The site of the new \$10,000,000 steel plant also was swept, but no serious damage was done. The storm subsided in a few minutes.

COURT UPHOLDS SOCIALISTS

Need Not Reimburse Officials for Illegal Salaries.

Milwaukee, April 26.—Judge Turner has decided that the city treasurer and controller, who left office with the retirement of the Socialist administration, would not have to reimburse the city for \$30,000 illegally spent in city salaries. The supreme court ruled that several officials, whose salaries aggregate \$30,000, had been named illegally, but the lower court, in a suit for reimbursement, decided the city was liable for the salaries paid because the services were performed in good faith, though technically illegal.

Dr. Pearson's Improves Surprisingly.

Chicago, April 26.—Dr. D. K. Pearson, the aged philanthropist, who has given all of his fortune away, surprised his physicians by his wonderful improvement in the fight against death which seemed almost to have him in its grip. Reports from the bedside at Hinsdale sanitarium say the patient's temperature is normal, his respiration improved and the heart action much stronger.

VESSEL CRASHES INTO DOCK

Plows Clean Through It and Sinks Another Steamer.

Seattle, Wash., April 26.—The steamer Alameda crashed into a dock while coming into her berth. It is reported that several people were knocked into the water and many others were injured.

The Alameda struck the pier 100 feet from the end and plowed through it, sinking the sound steamer Telegraph, which lay at her moorings on the other side. The severed end of the dock fell into the water and the deck of the Alameda was covered with wreckage.

GOVERNOR HADLEY.

Chairman of Missouri Republican Convention.

ROOSEVELT MEN IN CONTROL

Governor Hadley Chairman of Missouri Convention.

St. Louis, April 26.—Governor Hadley took the gavel as permanent chairman of the Missouri Republican state convention and the Roosevelt forces took control of the convention from the Taft leaders, who had fought stubbornly.

The credentials committee, dominated by Roosevelt men, returned the following report to the convention:

Recommended that out of thirteen contesting delegations eight Roosevelt delegations be seated; one Taft delegation be seated and in the remaining four counties that both Taft and Roosevelt delegations be seated with a half vote to each delegate.

A roll call was demanded and granted on the adoption of the credentials committee report, which gave the Roosevelt forces control.

The roll call showed that the report had been adopted by a vote of 1,120½ to 31½.

TORNADOES CAUSE IMMENSE DAMAGE

At Least Four Persons Killed in Oklahoma.

Wichita, Kan., April 26.—Four persons are reported dead as a result of one of four tornadoes which did great damage near the Kansas-Oklahoma line.

The greatest damage is reported from Ponca City, Okla., where three lives are known to have been lost. Seventy-five houses were destroyed.

At Uncas, Okla., twenty-five miles southeast of Arkansas City, the Santa Fe depot and several houses were destroyed.

Another storm near Genda Springs, twelve miles west of Arkansas City, destroyed a number of farmhouses.

A fourth tornado passed through between Arkansas City and Winfield, destroying a farmhouse and doing much damage to the interurban property.

At Genda Springs a near cloudburst flooded the lake, endangering a large concrete dam.

TWO GROUNDS FOR INQUIRY

House of Lords Discusses Senate Titanic Probe.

London, April 26.—The house of Lords took its turn in questioning the government on the subject of the senatorial inquiry at Washington into the Titanic disaster.

Earl Stanhope remarked the inquiry seemed to have only two grounds of justification. The first was that the steamship company concerned was not altogether British but partly American. If that were so it would obviously create a very extraordinary situation because it struck at the root of the position of the International Mercantile Marine in time of war as to whether the vessels belonged to a neutral or a belligerent power.

The only other ground was based on the terrible toll. If that were given as a reason for the inquiry at Washington obviously other nations whose citizens were passengers on board the Titanic would be justified in holding similar inquiries.

CHANGES LIKELY IN PATENT LAW

On Account of a Recent Decision of the Supreme Court.

SEVERAL BILLS INTRODUCED

National Board of Trade Is Opposed to Congress Action—Roddenberry of Georgia Is Against Granting Pensions to Spanish War Soldiers—Fish Stations Project.

By ARTHUR W. DUNN.

Washington, April 26.—[Special.]—Patent legislation is quite likely to pass this congress on account of the supreme court decision which gave a patentee not only the rights in his patent, but authority to compel users of his machine to use only such materials in connection with it as he approved. This decision caused a storm of protest at the time, and the result has been the introduction of several bills on the subject of patents. The national board of trade has protested against changing the law on this subject, saying that changes in the patent laws may work great loss.

There is a possibility that patent law changes may be encouraged by developments during the consideration of the postoffice appropriation bill, when it was shown that patentees of cancelling machinery literally held up the government by compelling it to pay a yearly rental on the machines almost equal to the value of the machines. It would not be surprising to see an amendment pass which will compel patentees to sell machines rather than continue ownership and exact exorbitant royalties and rentals.

Fish Stations Favored.

Not long ago a lot of bills were passed in the senate providing for fish cultural stations in different states. The vigilant Luke Lea of Tennessee and his side partner, Kenyon of Iowa, who created such a disturbance when they held up public buildings not long ago, did not seem to be on hand to stop this fish cultural station expenditure which smacks of "bork," although it relates to fish. A fish cultural station—in fact, more than one—is a particular perk of senators.

Comparing the Colonels.

Congressman Roddenberry of Georgia, opposing pensions for Spanish war soldiers, said it was not much of a war. "It was no war," he declared. "It was barely a skirmish. Why, even the president enjoyed the holiday as did the great ex-president, the would be president, the thrice time candidate for president. The rough riders rushed up San Juan hill and then to the White House."

"Do you include William Jennings Bryan in that?" asked Murdock of Kansas.

"William Jennings Bryan was just as patriotic, but not quite as persevering," parried Roddenberry.

"Nor quite so successful," interjected Young of Kansas.

"Not quite so successful," admitted the Georgia man. "The ex-president not only beat Bryan to the war, but he grabbed up all of Bryan's political paraphernalia, all of his progressive accoutrements, his ammunition, his doctrines, his bombshells and explosives, and marched up before the American people, leaving Bryan standing on Gibraltar alone, and with the acclaim of thousands was inducted into the position of commander in chief of all the armies of the United States, and we hailed him president."

"Worse Than Cannon."

These Democrats are going to make Uncle Joe Cannon quite a shining light if they don't look out. Whenever the caucus screws are pressed down hard or the "rag" rule is applied ruthlessly there are a lot of Democrats who scream that the methods are worse than any used by Uncle Joe in his palmy days of "czarism." Cannon may be vindicated before this congress adjourns.

The Cameron Control.

Political students pointed out after the Pennsylvania primaries that for the first time in sixty years the old Cameron control of the Republican party in Pennsylvania has been broken. Always has the dynasty of Cameron, Quay and Penrose controlled the party and more particularly the delegations to the national conventions. Always have they named the United States senators and most of the members of congress.

Don Cameron Still Lives.

The second Cameron, J. Donald, who for eighteen years was one of the Pennsylvania senators, retiring voluntarily, has lived to see his successor become a senate leader. He still takes a keen though not active interest in politics. In his later years in politics Cameron left everything to Quay, and gradually Quay gave up power to Penrose.

Far West Adjectives.

On a bill of small importance Congressman Warburton of Washington indulged in western extravagance of words. Speaking of a small tract of land involved in the legislation, he said in a dozen lines that it would become for the school fund of his state a "great asset," a "splendid asset" and an "enormous asset," and finally that at some time it would be sold for a "great big sum."

Postage Stamps.

Of the 24,302 world's postage stamps the British empire has issued over 7,000 varieties.

W. M. CRANE.

President Taft Praises Massachusetts Senator.

CALLS COLONEL POOR LOSER

Taft Says He Forgets Standard of Square Deal.

Springfield, Mass., April 26.—In the course of his speech here Mr. Taft praised Senator Crane.

"The exigency of a political campaign and the heat and passion that bring about denunciation of high minded public men is reprehensible.

"Mr. Roosevelt has not learned one thing in his whole life and that is to be a good loser.

"If there was fraud in the New York primaries why did the Roosevelt people not go into court and sustain their charges? I will tell you why; because proof is necessary in court, and it is not needed in the headlines of the newspapers or a thousand miles away."

"Mr. Roosevelt forgets the standards of the 'square deal,'" exclaimed the president.

COURTS BULWARK OF PREDATORY WEALTH

Bryan's Commoner Assails Federal Tribunals.

Lincoln, Neb., April 26.—Control of federal courts by "big business" against the steel trust, wants Harmon; and Underwood by Morgan, Hill and Rockefeller, declares W. J. Bryan in a commoner editorial. Bryan says:

"Big business is busy now laying its plans to control the appointment of United States judges. The federal courts are the bulwark of predatory wealth—even the supreme court is its friend, as shown by the reorganization force through which the oil and tobacco trusts were permitted to go. The recent patent decision gives additional proof of the court's leaning to the side of privilege.

"President Taft's appointments have been satisfactory to predatory wealth, but as there is danger of his defeat at the polls, 'the interests' are seeking to control the Democratic convention. Their first choice is Governor Harmon, but they will be satisfied with Underwood.

"Morgan, a defendant in the suit against the steel trust, wants Harmon; Hill, who organized the railroad merger, wants Underwood, but all of the plunderbund oppose a progressive. They want to control the bench, and to do that they must have those who, by bias, lean toward the interests as Governor Harmon and Underwood do, or they must secure a pledge in return for promise of support."

PEACE IN CENTRAL FIELD

Soft Coal Miners and Operators Sign Agreement.

Indianapolis, April 26.—With the formal signing of the Cleveland wage contract here by representatives of the United Mine Workers of America and the bituminous coal mine workers peace was established in the central competitive field, so far as wages are concerned, for the next two years. The field comprises Indiana, Illinois, Ohio and Western Pennsylvania and the agreement probably will be the basis for contracts in the North and South-west coal fields.

The new contract calls for an increase of 5 cents a ton on screened coal; 3 cents a ton on mine run; and 5.26 per cent increase in day labor about the mines.

Alienist Says Richeson Insane.

Boston, April 26.—Clarence V. T. Richeson, the former minister, under sentence to die during the week beginning May 19 for poisoning Avis Linnell, is "abnormal, hysterical and irresponsible," according to Dr. E. B. Lane, an alienist, who observed the condemned man in behalf of Richeson's attorneys. Dr. Lane makes this statement in a report to the lawyers, Richeson's lawyers are to appear before Governor Foss and present a petition for commutation of sentence.

COLONEL HITS BACK AT TAFT

SUMMONS THREE NEW WITNESSES

Senate Committee Trying to Get All Wreck Facts.

CALLS MOUNT TEMPLE CAPTAIN

Commander of Ship Which Is Alleged to Have Passed Near the Titanic When She Was Sinking Will Give Evidence—Captain and Wireless Operator of Californian Also Will Go on the Stand.

Washington, April 26.—To learn why a nearby steamer did not offer to aid the sinking Titanic and to fix the exact hour at which the lost liner was warned that she was in the vicinity of dangerous ice Senator William Alden Smith, chairman of the senate committee investigating the disaster, summoned three important witnesses.

They are J. H. Moore, captain of the steamer Mount Temple, which passed within a short distance of the Titanic when she was in extremity, and the captain and the wireless operator of the liner Californian, which sent the warning.

Summonses were issued for the master and the operator of the Californian, while announcement that Captain Moore would appear was contained in a telegram from Acting Premier Foster of Canada. Captain Moore's story probably will be heard first, for his ship is due to sail from St. Johns, N. B., late Saturday.

A new method of examining the members of the crew of the Titanic has been adopted to insure greater dispatch. The men are anxious to return to their homes in England.

Examine Men in Groups.

Accordingly each member of the committee undertook the examination of a group with the intention of releasing such as had nothing of importance to tell the committee. The others will be placed on the stand. The names of those to be held were not made public.

Virtually the entire day was given over to questioning Guglielmo Marconi, inventor of the wireless telegraph and head of the company bearing his name. Both the Titanic and the Carpathia were equipped with the Marconi apparatus.

Harold T. Cottam, the wireless operator on the Carpathia, also was re-examined. He was asked:

"Did you get in touch with the Mount Temple?"

"Yes sir, about 10:30 that night. She gave me 'good night,' but I did not get her position."

The witness said he was in touch with six or seven ships that night, among them the Hellig Olav.

Sensor Smith sought to learn whether the wave force furnished a clue to the proximity or distance of the vessel from which the message came. Cottam said it did not unless the receiving operator knew intimately the strength of the sending operator's batteries and the style of the apparatus.

Inquiry Regarding Silence.

"I desire to ask whether an officer, director or employee of the International Mercantile Marine, after the collision, asked you to enjoin silence on Titanic Operator Bride or Carpathia Operator Cottam as to the time or the manner in which the accident occurred?"

"No request was made and no order was issued to stop any message. No such instructions of any sort or manner were ever issued."

The witness was excused. Senator Smith made the following announcement:

"I desire to say that some rumors have reached the committee that there is friction and lack of harmony among the members of the subcommittee and I have the concurrence of my associates that the statement is absolutely untrue.

"Personally, I have never heard of the slightest friction. We are all proceeding in our own way to get results."

WANTS \$1,000,000 FOR CHINA.

Appeal Is Made For Relief of 6,000,000 Starving Chinese.

Such distressing famine news from Bishop Graves of Shanghai, chairman of the China committee, has been received that \$1,000,000 has been fixed as the sum which the committee thinks ought to be sent from America at once.

The new information just received is to the effect that 6,000,000 instead of 3,000,000, as at first reported, are on the verge of starvation.

President Taft has appealed to Americans in behalf of China, and the American Red Cross is co-operating with the committee.

House to Get Archibald Case.

Washington, April 26.—The resolution of Representative Norris of Nebraska, calling on the department of justice for all papers and information in its possession concerning the charges against Judge Archibald of the United States commerce court, passed the house without debate.

Roosevelt Replies to Accusation in Trust Case.

RESULT OF CABINET MEETING

Former President Says Present Chief Executive Was at Conference When It Was Decided Investigation of Harvester Company Should Be Completed Before Filing of Any Suit.

Oyster Bay, N. Y., April 26.—"The talk about the 'suppression of the report' is nonsense," said Colonel Roosevelt in a statement setting forth his connection with the International Harvester company case.

Colonel Roosevelt asserted that at a meeting with his cabinet, at which Mr. Taft was present, it was decided that the bureau of corporations be instructed to complete its investigation of the harvester company before any suit was instituted, following the usual course of procedure in such cases. Mr. Taft, he added, concurred in this decision.

During the remainder of his administration, a period of a year and a half, Colonel Roosevelt said, the commissioner of corporations was unable to complete his investigation. He said that in three years of the present administration Mr. Taft at any time could have ordered the attorney general to bring suit against the harvester company, or could have requested the commissioner of corporations to hasten his investigation, but that Mr. Taft has taken no action, "except that now taken five days before the Massachusetts primaries."

Colonel Roosevelt also said that when the Northern Securities suit was brought against the Morgan interests in 1904 he was expecting to run for president, but that when the harvester matter came up in 1907 he knew he would not be a candidate the following year, so that if the action taken in this case did procure the good will of "any of the Morgan interests for anybody it secured their good will for Mr. Taft."

"I have just begun to fight," Colonel Roosevelt said.

He received reports of President Taft's criticism of him in his speech at Springfield, Mass., but declined to comment upon it, saying that he would make his reply in his speeches in Massachusetts.

MAY ELIMINATE BOTH MEN

Republican Leaders Fear Mud Slinging Campaign.

Washington, April 26.—President Taft's bitter attack on Colonel Roosevelt in Boston and the publication of records in the harvester trust case, designed to show that in his administration Colonel Roosevelt favored that corporation, together with statements daily issued by Director McKinley of the Taft bureau in which the former president is characterized as a demagogue, has stirred Republican leaders up to a high pitch of excitement. Only those closely identified with the Taft management approve the style of personal attack now indulged in by the president and his supporters.

Republicans generally predict that Colonel Roosevelt will follow the lead of the president and give out some correspondence that he has in hand. The prediction is made that in a week the campaign will develop into a mud slinging affair that is bound to react on the party and possibly result in eliminating both the president and the former president.

TWO GROUNDS FOR INQUIRY

Earl Stanhope remarked the inquiry seemed to have only two grounds of justification. The first was that the steamship company concerned was not altogether British but partly American. If that were so it would obviously create a very extraordinary situation because it struck at the root of the position of the International Mercantile Marine in time of war as to whether the vessels belonged to a neutral or a belligerent power.

The other ground was based on the terrible toll. If that were given as a reason for the inquiry at Washington obviously other nations whose citizens were passengers on board the Titanic would be justified in holding similar inquiries.

CHANGES LIKELY
IN PATENT LAWOn Account of a Recent De
cision of the Supreme Court.

SEVERAL BILLS INTRODUCED.

National Board of Trade Is Opposed to Congress Action — Roddenberry of Georgia Is Against Granting Pensions to Spanish War Soldiers—Fish Stations Project.

By ARTHUR W. DUNN.

Washington, April 26.—[Special.]—Patent legislation is quite likely to pass this congress on account of the supreme court decision which gave a patentee not only the rights in his patent, but authority to compel users of his machine to use only such materials in connection with it as he approved. This decision caused a storm of protest at the time, and the result has been the introduction of several bills on the subject of patents. The national board of trade has protested against changing the law on this subject, saying that changes in the patent laws may work great loss.

There is a possibility that patent law changes may be encouraged by developments during the consideration of the postoffice appropriation bill, when it was shown that patentees of canceling machinery literally held up the government by compelling it to pay a yearly rental on the machines almost equal to the value of the machines. It would not be surprising to see an amendment pass which will compel patentees to sell machines rather than continue ownership and exact exorbitant royalties and rentals.

Fish Stations Favored.

Not long ago a lot of bills were passed in the senate providing for fish cultural stations in different states. The vigilant Luke Lea of Tennessee and his side partner, Kenyon of Iowa, who created such a disturbance when they held up public buildings not long ago, did not seem to be on hand to stop this fish cultural station expenditure which smacks of "pork," although it relates to fish. A fish cultural station—in fact, more than one—is a particular perquisite of senators.

Comparing the Colonels.

Congressman Roddenberry of Georgia, opposing pensions for Spanish war soldiers, said it was not much of a war. "It was no war," he declared. "It was barely a skirmish. Why, even the president enjoyed the holiday as did the great ex-president, the would be president, the thrice time candidate for president. The rough riders rushed up San Juan hill and then to the White House."

"Do you include William Jennings Bryan in that?" asked Murdoch of Kansas.

"William Jennings Bryan was just as patriotic, but not quite as persevering," parried Roddenberry.

"Nor quite so successful," interjected Young of Kansas.

"Not quite so successful," admitted the Georgia man. "The ex-president not only beat Bryan to the war, but he grabbed up all of Bryan's political paraphernalia, all of his progressive accomplishments, his ammunition, his doctrines, his bombshells and explosives, and marched up before the American people, leaving Bryan standing on Gibraltar alone, and with the acclaim of thousands was inducted into the position of commander in chief of all the armies of the United States, and we hailed him president."

"Worse Than Cannon."

These Democrats are going to make Uncle Joe Cannon quite a shining light if they don't look out. Whenever the caucus series are pressed down hard or the "gang" rule is applied ruthlessly there are a lot of Democrats who scream that the methods are worse than any used by Uncle Joe in his palmist days of "charism." Cannon may be vindicated before this congress adjourns.

The Cameron Control.

Political students pointed out after the Pennsylvania primaries that for the first time in sixty years the old Cameron control of the Republican party in Pennsylvania has been broken. Always has the dynasty of Cameron, Quay and Penrose controlled the party and more particularly the delegations to the national conventions. Always have they named the United States senators and most of the members of congress.

Don Cameron Still Lives.

The second Cameron, J. Donald, who for eighteen years was one of the Pennsylvania senators, retiring voluntarily, has lived to see his successor become a senate leader. He still takes a keen though not active interest in politics. In his later years in politics Cameron left everything to Quay, and gradually Quay gave up power to Penrose.

Far West Adjectives.

On a bill of small importance Congressman Warburton of Washington indulged in western extravagance of words. Speaking of a small tract of land involved in the legislation, he said in a dozen lines that it would become for the school fund of his state a "great asset," a "splendid asset" and an "enormous asset," and finally that at some time it would be sold for a "great big sum."

Underwood & Underwood.

CALLS COLONEL POOR LOSER

Taft Says He Forgets Standard of
Square Deal.

Springfield, Mass., April 26.—In the course of his speech here Mr. Taft praised Senator Crane.

"The exuberance of a political campaign and the heat and passion that bring about denunciation of high minded public men is reprehensible. "Mr. Roosevelt has not learned one thing in his whole life and that is to be a good loser."

"If there was fraud in the New York primaries why did the Roosevelt people not go into court and sustain their charges? I will tell you why; because proof is necessary in court, and it is not needed in the headlines of the newspapers or a thousand miles away."

"Mr. Roosevelt forgets the standards of the 'square deal,'" exclaimed the president.

COURTS BULWARK OF
PREDATORY WEALTHBryan's Commoner Assails Fed
eral Tribunals.

Lincoln, Neb., April 26.—Control of federal courts by "big business" against the steel trust, wants Harmon and Underwood by Morgan, Hill and Rockefeller, declares W. J. Bryan in a commoner editorial. Bryan says:

"Big business is busy now laying its plans to control the appointment of United States judges. The federal courts are the bulwark of predatory wealth—even the supreme court is its friend, as shown by the reorganization force through which the oil and tobacco trusts were permitted to go. The recent patent decision gives additional proof of the court's leaning to the side of privilege."

"President Taft's appointments have been satisfactory to predatory wealth, but as there is danger of his defeat at the polls, the interests are seeking to control the Democratic convention. Their first choice is Governor Harmon, but they will be satisfied with Underwood."

"Morgan, a defendant in the suit against the steel trust, wants Harmon; Hill, who organized the railroad merger, wants Underwood, but all of the plunderbund oppose a progressive. They want to control the bench, and to do that they must have those who, by bias, lean toward the interests as Governor Harmon and Underwood do, or they must secure a pledge in return for promise of support."

PEACE IN CENTRAL FIELD

Soft Coal Miners and Operators Sign
Agreement.

Indianapolis, April 26.—With the formal signing of the Cleveland wage contract here by representatives of the United Mine Workers of America and the bituminous coal mine workers peace was established in the central competitive field, so far as wages are concerned, for the next two years. The field comprises Indiana, Illinois, Ohio and Western Pennsylvania and the agreement probably will be the basis for contracts in the North and Southwest coal fields.

The new contract calls for an increase of 5 cents a ton on screened coal; 3 cents a ton on mine run; and 5.26 per cent increase in day labor about the mines.

Alienist Says Richeson Insane.

Boston, April 26.—Clarence V. T. Richeson, the former minister, under sentence to die during the week beginning May 19 for poisoning Avis Linnell, is "abnormal, hysterical and irresponsible," according to Dr. E. B. Lane, an alienist, who observed the condemned man in behalf of Richeson's attorneys. Dr. Lane makes this statement in a report to the lawyers. Richeson's lawyers are to appear before Governor Foss and present a petition for commutation of sentence.

COLONEL HITS
BACK AT TAFTSUMMONS THREE
NEW WITNESSESSenate Committee Trying to Get
All Wreck Facts.

CALLS MOUNT TEMPLE CAPTAIN

Commander of Ship Which Is Alleged to Have Passed Near the Titanic When She Was Sinking Will Give Evidence—Captain and Wireless Operator of Californian Also Will Go on the Stand.

Washington, April 26.—To learn why a nearby steamer did not offer to aid the sinking Titanic and to fix the exact hour at which the lost liner was warned that she was in the vicinity of dangerous ice Senator William Alden Smith, chairman of the senate committee investigating the disaster, summoned three important witnesses.

They are J. H. Moore, captain of the steamer Mount Temple, which passed within a short distance of the Titanic when she was in extremity, and the captain and the wireless operator of the liner Californian, which sent the warning.

Summonses were issued for the master and the operator of the Californian, while announcement that Captain Moore's story probably will be heard first, for his ship is due to sail from St. Johns, N. B., late Saturday.

A new method of examining the members of the crew of the Titanic has been adopted to insure greater dispatch. The men are anxious to return to their homes in England.

Examine Men in Groups.

Accordingly each member of the committee undertook the examination of a group with the intention of releasing such as had nothing of importance to tell the committee. The others will be placed on the stand. The names of those to be held were not made public.

Virtually the entire day was given over to questioning Guglielmo Marconi, inventor of the wireless telegraph and head of the company bearing his name. Both the Titanic and the Carpathia were equipped with the Marconi apparatus.

Harold T. Cottam, the wireless operator on the Carpathia, also was re-examined. He was asked:

"Did you get in touch with the Mount Temple?"

"Yes sir, about 10:30 that night. She gave me 'good night,' but I did not get her position."

The witness said he was in touch with six or seven ships that night, among them the Hellig Olav.

Senator Smith sought to learn whether the wave force furnished a clue to the proximity or distance of the vessel from which the message came. Cottam said it did not unless the receiving operator knew intimately the strength of the sending operator's batteries and the style of the apparatus.

Inquiry Regarding Silence.

"I desire to ask whether an officer, director or employee of the International Mercantile Marine, after the collision, asked you to enjoin silence on Titanic Operator Bride or Carpathia Operator Cottam as to the time or the manner in which the accident occurred?"

"No request was made and no order was issued to stop any message. No such instructions of any sort or manner were ever issued."

The witness was excused. Senator Smith made the following announcement:

"I desire to say that some rumors have reached the committee that there is friction and lack of harmony among the members of the subcommittee and I have the concurrence of my associates that the statement is absolutely untrue."

"Personally, I have never heard of the slightest friction. We are all proceeding in our own way to get results."

WANTS \$1,000,000 FOR CHINA.

Appeal Is Made For Relief of 6,000,000
Starving Chinese.

Such distressing famine news from Bishop Graves of Shanghai, chairman of the China committee, has been received that \$1,000,000 has been fixed as the sum which the committee thinks ought to be sent from America at once.

The new information just received is to the effect that 6,000,000 instead of 3,000,000, as at first reported, are on the verge of starvation.

President Taft has appealed to Americans in behalf of China, and the American Red Cross is co-operating with the committee.

RESULT OF CABINET MEETING

Former President Says Present Chief Executive Was at Conference When It Was Decided Investigation of Harvester Company Should Be Completed Before Filing of Any Suit.

Oyster Bay, N. Y., April 26.—"The talk about the 'suppression of the report' is nonsense," said Colonel Roosevelt in a statement setting forth his connection with the International Harvester company case.

Colonel Roosevelt asserted that at a meeting with his cabinet, at which Mr. Taft was present, it was decided that the bureau of corporations be instructed to complete its investigation of the harvester company before any suit was instituted, following the usual course of procedure in such cases. Mr. Taft, he added, concurred in this decision.

During the remainder of his administration, a period of a year and a half, Colonel Roosevelt said, the commissioner of corporations was unable to complete his investigation. He said that in three years of the present administration Mr. Taft at any time could have ordered the attorney general to bring suit against the harvester company, or could have requested the commissioner of corporations to hasten his investigation, but that Mr. Taft has taken no action, "except that now taken five days before the Massachusetts primary."

Colonel Roosevelt also said that when the Northern Securities suit was brought against the Morgan interests in 1904 he was expecting to run for president, but that when the harvester matter came up in 1907 he knew he would not be a candidate the following year, so that if the action taken in this case did procure the good will "of any of the Morgan interests for anybody it secured their good will for Mr. Taft."

"I have just begun to fight," Colonel Roosevelt said.

He received reports of President Taft's criticism of him in his speech at Springfield, Mass., but declined to comment upon it, saying that he would make his reply in his speeches in Massachusetts.

MAY ELIMINATE BOTH MEN

Republican Leaders Fear Mud Slinging
Campaign.

Washington, April 26.—President Taft's bitter attack on Colonel Roosevelt in Boston and the publication of records in the harvester trust case, designed to show that in his administration Colonel Roosevelt favored that corporation, together with statements daily issued by Director McKinley of the Taft bureau in which the former president is characterized as a demagogue, has stirred Republican leaders up to a high pitch of excitement. Only those closely identified with the Taft management approve the style of personal attack now indulged in by the president and his supporters.

Republicans generally predict that Colonel Roosevelt will follow the lead of the president and give out some correspondence that he has in hand. The prediction is made that in a week the campaign will develop into a mud slinging affair that is bound to react on the party and possibly result in eliminating both the president and the former president.

SWEEPING MONEY INQUIRY

Few Votes in House Against Puj
Resolution.

Washington, April 26.—The house empowered its banking and currency committee to make a sweeping investigation of the financial interests of the country; their relations to industrial, transportation and banking interests; and the extent to which their interrelations may constitute a "money trust."

By a vote of 241 to 15 the Puj resolution embracing practically all the allegations and authority of the original Henry money trust resolution was passed by the house immediately after Representative Mann of Illinois, Republican leader, in a fiery speech had charged the Democrats with trying to hold up the corporations and force them to support the Democratic candidate for the presidency.

CHARGE CRIME TO MARSHAL

Miners Allege Range Official Held
Them Up With Gun.

Duluth, April 26.—Joe Graham, village marshal of Calumet, on the iron range, is under arrest, charged with having held up and robbed H. Ross and C. Anderson of \$7. The robbery is alleged to have been committed at the point of a gun and the arrest was made by Sheriff Gunderson in Grand Rapids.

The prisoner denies his guilt and says he did not see his accusers before. The men claim they were coming from work on the night shift at one of the mines when the police chief relieved them of their cash and sent them on their way, threatening them with dire results if they made an outcry.

Give "Syrup of Figs"
Children dearly love to take deli-
cious "Syrup of Figs" and nothing
else cleans and regulates their ten-
der little stomachs, liver and bowels
so promptly and thoroughly.

Children get bilious and consti-
pated just like grown-ups. Then they
get sick, the tongue is coated, stom-
ach sour, breath bad, they don't eat
or rest well; they become feverish,
cross, irritable and don't want to
play. Listen Mothers—for your
child's sake don't force the little one
to swallow nauseating castor oil, vi-
olent calomel or harsh irritants like
Cathartic pills. A teaspoonful of
Syrup of Figs will have your child
smiling and happy again in just a few
hours. Syrup of Figs will gently
clean, sweeten and regulate the
stomach, make the liver active and
move on and out of the bowels all the
constipated matter, the sour bile the
foul, clogged-up waste and poisons,
without causing cramps or griping.

With Syrup of Figs you are not
drugging or injuring your children.
Being composed entirely of luscious
figs, senna and aromatics it cannot
be harmful. Full directions for
children of all ages and for grown-
ups plainly printed on the package.

The wind during the night and
early morning played havoc with the
globes on the street lamps. Two
were dislodged from the post on Sixth
street near the depot and smashed on
the sidewalk. One was broken at the
southeast corner of Sixth and Laurel
streets. A number of umbrellas were
turned inside out this morning and
one man walked down Sixth street
carrying nothing but the handle and
a few ribs of what previously was a
good, serviceable umbrella.

Child Drowns in Well.
Shakopee, Minn., April 26.—The
three-year-old son of Peter Weldon
fell into a fifty-foot well and was
drowned. The well was covered, but
the child, playing around the yard, re-
moved a board and fell in. The little
boy and his mother were visiting a
neighbor when the accident occurred.

**KEEP THE CHILDREN'S
BOWELS CLEAN NOW**
If Tongue is Coated, Stomach Sour,
Breath Fervish, Bowel Clogged
Give "Syrup of Figs"
Children dearly love to take deli-
cious "Syrup of Figs" and nothing
else cleans and regulates their ten-
der little stomachs, liver and bowels
so promptly and thoroughly.

Children get bilious and consti-
pated just like grown-ups. Then they
get sick, the tongue is coated, stom-
ach sour, breath bad, they don't eat
or rest well; they become feverish,
cross, irritable and don't want to
play. Listen Mothers—for your
child's sake don't force the little one
to swallow nauseating castor oil, vi-
olent calomel or harsh irritants like
Cathartic pills. A teaspoonful of
Syrup of Figs will have your child
smiling and happy again in just a few
hours. Syrup of Figs will gently
clean, sweeten and regulate the
stomach, make the liver active and
move on and out of the bowels all the
constipated matter, the sour bile the
foul, clogged-up waste and poisons,
without causing cramps or griping.

With Syrup of Figs you are not
drugging or injuring your children.
Being composed entirely of luscious
figs, senna and aromatics it cannot
be harmful. Full directions for
children of all ages and for grown-
ups plainly printed on the package.

Ask your druggist for the full
name "Syrup of Figs and Elixir of
Senna" prepared by the California
Fig Syrup Co. This is the delicious
tasting, genuine old reliable. Re-
fuse anything else offered.

The Burden of Age.
I know of little better worth remem-
bering as we grow old than what
pleased us while we were young. With
the memory of the kind words once
spoken come back the still kinder looks
of those who spoke them; and, better
than all, that early feeling of budding
manhood, when there was neither fear
no distrust. Alas, these are the things,
and not weak eyes and tottering limbs,
which form the burden of old age. Oh,
if we could only go on believing, go on
trusting, go on hoping to the last, who
would shed tears for the bygone feats
of his youthful days, when the spirit
that evoked them lived young and vivid
as before?—Charles Lever.

Gray Leaved Plants.
Next to green, gray is the restfullest
and most satisfactory color to be had
in foliage. We now have so many
hardy plants with gray foliage that we
can choose one for each month of
bloom and color of flower. Among
them are the silvery milfoil, gold dust
the white and purple rock-rose, the
woolly leaved chickweed, many hardy
pinks, Siebold's day lily, Fischer's
horned poppy, lavender cotton, wound
wort and woolly thyme. Some of these
are decidedly silvery. Others incline
to a blue cast, which is most pro-
nounced in the globe thistles and sea
holies. Such colors are so unusual in
nature that it is easy to overdo them
in gardens.—Country Life in America.

Taft Sure of Nomination.
Up to and including April 12 494 de-
legates had been elected to the Repub-
lican national convention, which meets
in Chicago in June. Of these Presi-
dent Taft has 341 instructed for or
pledged to his renomination. There
remained to be elected on that date
582 delegates. Of these Roosevelt needs
only 198 and Mr. Roosevelt needs
426. In other words, if President Taft
gets one out of every three delegates
remaining to be elected he will have
within four of enough to nominate,
while Mr. Roosevelt must have three
out of every four of the delegates re-
maining in order to secure the nomina-
tion. That President Taft will have
more than 700 delegates at Chicago is a
certainty.

Urge your husband to give you a Bank account

No one was ever able to swim without going into the water. How is a woman going to know how to save money who never had any money to save? If more men intrusted their finances to their WIVES, there would be fewer bankrupts. If men intrusted their wives with their bank accounts, they would find at the end of the month that there was a BIGGER BALANCE in the bank than ever before.

"Wait" Kunitz, the well known traveling salesman for the National Biscuit company, became infused with a streak of economy Tuesday while in the city and the result was

a broken ankle, according to the report given out by the day clerk at the Buckman. It is the custom of all salesmen making Little Falls to hire a livery rig to take them on their visits to customers in the outskirts of the city. On Tuesday, however, Kunitz, so the story goes, decided that he must economize and also that he must have more real exercise than his rig to take. He therefore hailed a boy at the hotel and successfully dickered with him for the use of his bicycle. Kunitz then began a wild ride for the Jacobson store on Seventh street northeast. As he progressed his speed increased and in his efforts to reach his destination before John Taylor arrived in town he failed to notice a loose board in the otherwise smooth cement walk. As the story goes the board gave way and Kunitz fell, breaking an ankle. He left for his home in Brainerd on the noon train Tuesday, with the full belief that a bicycle is poor economy and too strenuous exercise.—Little Falls Transcript.

WE TWO.

The Burden of Age.

I know of little better worth remembering as we grow old than what pleased us while we were young. With the memory of the kind words once spoken come back the still kinder looks of those who spoke them; and, better than all, that early feeling of budding manhood, when there was neither fear no distrust. Alas, these are the things, and not weak eyes and tottering limbs, which form the burden of old age. Oh, if we could only go on believing, go on trusting, go on hoping to the last, who would shed tears for the bygone feats of his youthful days, when the spirit that evoked them lived young and vivid as before?—Charles Lever.

Gray Leaved Plants.

Next to green, gray is the restful and most satisfactory color to be had in foliage. We now have so many hardy plants with gray foliage that we can choose one for each month of bloom and color of flower. Among them are the silvery milfoil, gold dust the white and purple rockrose, the woolly leaved chickweed, many hardy pinks, Siebold's day lily, Fischer's horned poppy, lavender cotton, wound wort and woolly thyme. Some of these are decidedly silvery. Others incline to a blue cast, which is most pronounced in the globe thistles and sea hollies. Such colors are so unusual in nature that it is easy to overdo them in gardens.—Country Life in America.

Taft Sure of Nomination.

Up to and including April 12 494 delegates had been elected to the Republican national convention, which meets in Chicago in June. Of these President Taft has 341 instructed for or pledged to his renomination. There remained to be elected on that date 582 delegates. Of these President Taft needs only 198 and Mr. Roosevelt needs 426. In other words, if President Taft gets one out of every three delegates remaining to be elected he will have within four of enough to nominate, while Mr. Roosevelt must have three out of every four of the delegates remaining in order to secure the nomination. That President Taft will have more than 700 delegates at Chicago is a certainty.

TAXATION IN MINNESOTA

THE FOLLOWING IS ONE OF A SERIES OF ARTICLES PUBLISHED BY REQUEST OF THE MINNESOTA TAX COMMISSION CRITICISM OR SUGGESTION IS CORDIALLY INVITED

Taxation of Money and Credits
Money and credits have always been subject to taxation in Minnesota. Prior to 1911 the state attempted to tax such property on the same basis and at the same time as other classes of personal property, but never succeeded in getting even a reasonable percentage of it on the tax rolls.

The nature of the property is such that it can be easily concealed. In 1910 the total amount of this class of property listed for taxation was less than fourteen million dollars, an amount conservatively estimated to be less than three per cent of the actual value of such property owned in the state.

Realizing the impossibility of getting such property on the tax rolls under existing laws, the legislature in 1911 passed a law imposing a flat rate of three mills on the dollar, or thirty cents on each hundred dollars of valuation, such tax to be in lieu of all other taxes on this class of property.

The new law, known as Chapter 285, Laws of 1911, provides that such property shall be listed and valued on a separate listing blank and shall include "money and credits" as defined in the Revised Laws of 1905.

"Money" means all money owned by a person whether in hand or on deposit in a bank in this or some other state.

"Credits" include all book accounts, bills receivable, mortgages and land contracts not recorded in this state, promissory notes, bonds, rents, annuities, and all other claims or demands for money or other valuable

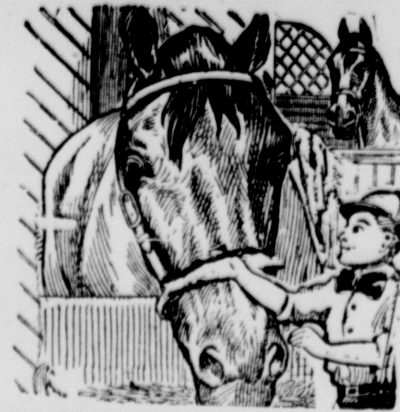

The assessment is to be made at the fair cash value of the property, and not at a percentage of such value. Debts cannot be deducted from credits.

The law requires each person subject to the tax to make a sworn return of his money and credits on the listing blank furnished him by the assessor. Such return must be made on or before June 1.

The assessor is required to accept the items of such list as true, unless the person making the return refuses to answer on oath all reasonable and necessary inquiries as to the nature and amount of his property taxable under this law. The assessor may, however, place his own valuation on the property so listed when in his judgment the valuation returned by the owner is not the true and full value of the property.

If any person subject to the tax refuses or neglects to make a return as provided for in the law, the assessor is required to make an arbitrary assessment against such person based upon the best information he can obtain, and then add 50 per cent to the valuation as a penalty for such refusal or neglect.

In making an arbitrary assessment the law does not require the assessor to have exact knowledge of the value of the property; he is authorized to make the assessment upon "his best information and belief" and in such cases he must impose the penalty. If the assessor should over value any of the items of the property the person against whom the assessment is made is not entitled to any relief, unless the aggregate of such assessment is excessive.

JOHN CARLSON

If a person was assessed for this class of property last year and fails to make a return this year, the assessor is required to make an arbitrary assessment and cannot fix the amount at less, but may make it more, than the amount legally assessed against such person last year.

Even though a person claims that he does not own any of this class of property he should nevertheless return his list to the assessor setting out such fact duly sworn to.

\$150,000 TO LOAN

THE NORTHWESTERN BUILDING ASSOCIATION of Fergus Falls has \$150,000 to loan on real estate in the towns and villages of northern Minnesota. In 1911 it loaned \$90,000. More than 400 homes and properties now being paid for through this association. No loan is too big for it to handle, no loan too small for it to make. Every man who borrows borrows on exactly the same terms as every other member. It is the largest co-operative bank in northern Minnesota and has assets of more than a quarter of a million dollars and rapidly growing.

There is no way so easy and so certain of paying for a home as the regular payment. This association affords its members every condition which makes their loans easy for them to handle. Loans can be paid off at any time and partial payments can be made and thus reduce the size of the monthly payments.

When you pay rent the landlord owns the home and has the rent. When you drive a nail or stop up a crack you do it for his benefit. If you own the

house where you live you can constantly add to its value through your own efforts and without expense increase your comfort and pleasure.

The Northwestern Building Association is not a stock selling proposition. When you want to borrow money of this association you do not have to pay in and wait until the money is accumulated. You get it as soon as the property can be examined, the loan approved and the papers signed. It loans on all classes of real estate which look good to the directors.

If you want to borrow money call or write.

RECEIVER NAMED FOR POWER CO.

Judge Brill, of St. Paul, Takes Action in the Brainerd Power Company Case

ON PETITION OF MAX TOLTZ

Max W. Mattson Appointed Receiver For the National Light, Heat & Power Co.

On the petition of Max Toltz, in district court Thursday morning, says the St. Paul Dispatch, Judge Brill appointed Max W. Mattson receiver for the National Light, Heat & Power company.

The company recently acquired the light plant at Brainerd from a company organized by Mr. Toltz and has failed to meet payments. The receivership was not contested.

Inquiry at the water and light board offices in the city and the city clerk failed to reveal any knowledge as to these proceedings.

City Attorney M. E. Ryan was seen this noon when he returned from from Walker and said no notice of the appointment of a receiver had been served on him.

The appointment of a receiver transfers to such person the power of protecting the interests of the company. It may have been that the Minneapolis trust company which loaned the National Light, Heat & Power Co. money is seeking to protect its mortgage on the property.

Max Toltz and his attorney, M. W. Mattson, arrived from St. Paul this afternoon. Mr. Toltz refused at this time to give out any matter for publication.

FINDS ANOTHER TURKEY

Journal Press Unearths a Thanksgiving Turkey Which it Says Ousdahl Got

All references to the turkey and geese disclosed in the water and light board investigation at the council were, according to the evidence, poultry bought for a Christmas and not Thanksgiving donation, and so stated by the Dispatch.

Through error or otherwise, the Journal Press unearths another turkey for Mayor Ousdahl by stating he got a Thanksgiving turkey. It says further:

"Ousdahl got the turkey and he would have been very impolite to have sent it back to the donors, but that turkey would have gone back fast enough if the then mayor had had the least suspicion that it was to be paid for with city money. That part of the deal he was ignorant of until it came out in this investigation."

Report Current to That Effect and That Ore Will be Transferred at Carleton

N. P. HAS BOUGHT LAND THERE

Yard Facilities are Also to be Greatly Increased at that Point of the Line

A dispatch from Hibbing addressed to the Duluth Herald states that "The Northern Pacific railroad may install terminals at Carleton for the transfer of the iron ore from the Cuyuna range to the Great Northern to be handled at the docks at Allouez, according to W. M. Cain, of Carleton, who was at Hibbing recently.

"There is also a possibility that shops may be put in at Carleton for emergency work by the Northern Pacific.

"The company has recently been acquiring considerable property there and it is already assured that its yard facilities are to be considerably increased. Mr. Cain is one of the old time lumbermen of this section."

HIGH SCHOOL VS LITTLE FALLS

Game of the Locals With Down River School on Coming Saturday Afternoon

The baseball game Saturday when the Little Falls high school team meets the Brainerd high, says the Little Falls Transcript, promises to be one of the best on the high school schedule. Brainerd claims to have the best team that has represented that city in years and expects to gain the championship for his part of the state. The Little Falls team, however, has practically the same line up as last season when they went through the season without defeat and they are not willing to admit that any high school in the state has a better team.

Alderman will be on the mound for Brainerd and Diederich will pitch for Little Falls with the same players back of him as in the Sauk Centre game last Friday. The game will be called at 3:30 Saturday afternoon at the Athletic park and tickets will be sold at the usual price, 25 cents. The high school games deserve better patronage than was received at the Sauk Centre game, as not enough was taken in at that time to pay expenses.

High School Entertainment

The entertainment to be given this evening in the high school auditorium will be as follows:

Song—Freshmen Girls

Introduction—Miss Grace Laurie

"Spartious to the Gladiators"—John Mahlum

Play—"A Roman School"—20 Boys

Drill—Vestal Virgins with tapers

Program at eight o'clock. Admission 10 cents.

Wm. T. Topel, 602 3rd St., Brainerd, N. D., tells of the benefits he derived from Foley Kidney Pills. "I suffered with intense pains in my back and sides, and my kidneys were very weak. I took Foley Kidney Pills and in a short time the pains left my body and my kidneys are well again. For this I am deeply grateful to Foley Kidney Pills." For sale by all druggists. mwf-w

TAFT MEN NUMEROUS ON CUYUNA RANGE

Mining Men in Crosby Believe That a Continuance of President Taft in Office Means

MORE PROSPERITY ON RANGE

"Elect LaFollette and You Make the Country as Dead as Superior, Wisconsin"

The consensus of opinion among the mining men of the Cuyuna range in and near Crosby is to the effect that a continuance of President Wm. H. Taft in office means ever increasing prosperity on the range.

Said one of them in an interview: "You cannot force people to invest their money in enterprises. You cannot compel capital to come from its hiding place if industrial and political conditions drive it to retirement. If you hammer at the steel trust you touch also the Cuyuna range, for all the iron interests are interwoven. In commercial life a feeling of distrust or of unrest in one section of the country soon permeates all branches of industry. Capital and labor are so closely related that an injury to one affects the other.

"If you elect LaFollette," said this mining man emphatically, "you make of the United States a country like Superior, Wisconsin. Superior is eminently a LaFollette town. Compare it with Duluth. See the difference in spirit and enterprise.

"And let me tell you, if people want things stirred up, if they want investigations which simply unsettle business and upend a corporation so that it does not know where it stands, let them elect Theodore Roosevelt. Believe me, if he lands in the chair, you can take it as my personal opinion that two-thirds of the town of Crosby will be running up and down the cement walks looking for a job. We know conditions."

H. Lefkowitz, a prominent merchant of Crosby, has always been a sincere and consistent Taft adherent. He believes that a continuance of President Taft in office means good business conditions on the range.

B. J. Magoffin, Jr., one of the most prominent explorers of the Cuyuna range and now located at Deerwood, is an enthusiastic Taft man.

There are others all over the range, in all lines of business and employment. When so much rampant criticism is leveled at a man as the president it is assuring to find that his worth is appreciated in Crow Wing county and especially right in the heart of active mining and shipping operations.

As one man expressed it: "If you want settled business conditions and an end to any more disturbing influences, especially in the mining industry, vote for President Taft."

G. E. Calhoun, 804 W. 3rd St., Sioux Falls, N. D., says: "I had a bad case of kidney trouble and suffered greatly with severe pains in my back. The action of the kidneys was very irregular and painful. I took Foley Kidney Pills and in a few days the pain left and the kidney action was corrected. I am now well and gladly recommend Foley Kidney Pills." For sale by all druggists.

MUSIC AND DRAMA

At the Grand

One of the finest musical acts seen in Brainerd is that of Bingham and Gable at the Grand. Charles Bingham is the double cornetist, playing and triple tonguing two cornets, fingering one with the left and the other with the right hand, the one being a first and the other a second cornet. It took Mr. Bingham six years to master the double playing of the instruments. Miss Gable is proficient on the trombone, mandolin and baritone.

At the Empress

Patrons of the photo-play will be pleased to know that Manager Laymon of the Empress is presenting tonight and tomorrow night one of the best bills of pictures ever seen in the city. The entire bill is well balanced, offering two dramas and a humorous rural comedy.

The feature of the bill, a modern tale of city life, entitled "The Brotherhood of Man" is undoubtedly one of the greatest pictures of its kind ever produced, and stages a very realistic wrestling match of several minutes duration, which is much better than many bonafide matches one sees at athletic entertainments. You shouldn't miss the feature.

The musical portion of the program is in itself a feature those Popular Harmony Singers, singing in a pleasing manner the late popular song hit, "Everybody's Doin' It" and "Under the Dreamy Moon."

Mrs. T. A. Town, wife of a well known citizen of Watertown, S. D., writes: "About four years ago I had a severe case of lagrippe and the doctor prescribed Foley's Honey and Tar Compound, and it soon overcame the lagrippe. When any of my four children have a cold, I never think of any cough medicine except Foley's Honey and Tar Compound for I can always depend upon its curing them." For sale by all druggists. mwf-w

RECEIVER NAMED FOR POWER CO.

Judge Brill, of St. Paul, Takes Action in the Brainerd Power Company Case

ON PETITION OF MAX TOLTZ

Max W. Mattson Appointed Receiver For the National Light, Heat & Power Co.

On the petition of Max Toltz, in district court Thursday morning, says the St. Paul Dispatch, Judge Brill appointed Max W. Mattson receiver for the National Light, Heat & Power company.

The company recently acquired the light plant at Brainerd from a company organized by Mr. Toltz and has failed to meet payments. The receivership was not contested.

Inquiry at the water and light board offices in the city and the city clerk failed to reveal any knowledge as to these proceedings.

City Attorney M. E. Ryan was seen this noon when he returned from from Walker and said no notice of the appointment of a receiver had been served on him.

The appointment of a receiver transfers to such person the power of protecting the interests of the company. It may have been that the Minneapolis trust company which loaned the National Light, Heat & Power Co. money is seeking to protect its mortgage on the property.

Max Toltz and his attorney, M. W. Mattson, arrived from St. Paul this afternoon. Mr. Toltz refused at this time to give out any matter for publication.

FINDS ANOTHER TURKEY

Journal Press Unearths a Thanksgiving Turkey Which it Says Ousdahl Got

All references to the turkey and geese disclosed in the water and light board investigation at the council were, according to the evidence, poultry bought for a Christmas and not Thanksgiving donation, and so stated by the Dispatch.

Through error or otherwise, the Journal Press unearths another turkey for Mayor Ousdahl by stating he got a Thanksgiving turkey. It says further:

"Ousdahl got the turkey and he would have been very impolite to have sent it back to the donors, but that turkey would have gone back fast enough if the then mayor had had the least suspicion that it was to be paid for with city money. That part of the deal he was ignorant of until it came out in this investigation."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by rebuilding the constitution. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

PASTOR RUSSELL'S ADIEU TO INDIA.

Found Large Hospitals For De-crepit Animals.

Other Observations on India, but No Reference to Missions—Foreign Investigation Committee Will Report Findings in Hippodrome Upon Its Return to New York.

Bombay, 25.—The Committee of the International Bible Students Association for the Investigation of Foreign Missions have spent three weeks in India and traveled over three thousand miles. The seven members divided the work among them at the various stopping points and will co-labor in the report. The committee will report its findings at a meeting to be held in the New York Hippodrome on March 31. A summary of today's discourse of Pastor Russell in the Y. M. C. A. Auditorium is as follows:—

I had a great interest in your land and its people before coming to your shores, but my interest has been greatly increased by what I have witnessed during the past three weeks in India—not only in your largest cities, but also in your towns, villages and agricultural districts. As there are no other extremes in the world so great as between the caps of your Himalaya mountains and the wash of your coral strands, 29,000 feet below them, so likewise there can be found no greater contrast socially and financially than between your wealthy princes and your poverty-stricken lower castes. Although such contrasts are deplorable we have no remedy to suggest except the Divine one—the establishment of Messiah's Kingdom.

Generous Instincts of India's Wealthy.
Although I have remarked of your hundreds of millions of hopelessly poor, I have not overlooked the fact that some of your wealthy have shown that they are not without generous instincts. Many of your merchant princes have evidently given largely to the charitable institutions, notably in Bombay, large animal hospitals having been provided for decrepit chickens, donkeys, etc.

However we may consider such benefactions, in view of human need and suffering, we cannot overlook the fact that sympathy is there, only waiting for the proper direction, which Messiah's Kingdom will shortly give.

Our forefathers saw the height of God's love for the holy angels and its condescension to the sinfully of men, but they did not see its depths. They did not see that the Redemption accomplished by Jesus is ultimately to reach down to and embrace the very humblest and most degraded of his mankind, dead as well as alive. How the precious Scriptures which tell of Jesus as the Savior of the world, as well as of the Church, escaped our notice, who can explain?

But surely glad are we that now we can see clearly that the Redeemer is a Propitiation for our sins, the Church's sins, and not for ours only, but also for the sins of the whole world. This fuller appreciation of the lengths and breadths and heights and depths of love Divine is coming to Christian people as a benediction from heaven, just at the time when many are higher-critically repudiating the Bible and its God as unworthy of belief. The true view of God's Word we have in the Bible, namely, that all the families of the earth are to be blessed by Messiah's Kingdom, and that the Church, in process of election, is to be sharer with her Lord in that Kingdom.

"In the Ages to Come."
The heights and depths and lengths and breadths of Divine love toward the elect Church, the Bride of Christ, will not be fully exhibited to angels and to men, even during the glorious period of Messiah's reign. Saint Paul explicitly declares, "that in the Ages to come He might show the exceeding riches of His grace in His kindness toward us through Christ Jesus." (Ephesians II, 6, 7.) Is it asked what opportunity there will be for further favors to be bestowed upon the Church at the conclusion of Messiah's reign?

If our astronomical concepts are correct, all the fixed stars are suns, and around each sun are planets. Are there, then, a thousand blazing suns? Yes, more! Are there ten thousand? Yes, more! Are there ten times ten thousand? Yes, more! Are there ten times a hundred thousand, a million? Yes, more! Are there ten times ten millions, a hundred millions? Yes, more! And if we allow an average of ten planets to each sun this would make more than a thousand million planets, all made not in vain, but eventually to be inhabited.

Alas! our poor minds are bewildered with such manifestations of Divine Power and Wisdom, even as we have already been bewildered in our attempt to appreciate the heights and depths of Divine Love. Will there not indeed, then, be quite a sufficiency of the Divine Program to be outworked through Christ and the Church to justify the Apostle's statement that in the Ages to come God will manifest the exceeding riches of His grace in His loving kindness toward us in Christ Jesus?

New Caledonia.
Until 1853 New Caledonia was a sort of no man's land. Then both England and France decided to annex it, and orders came to two warships to proceed thither at once. They started the same day. The English captain had heard of the reefs that surround the island, and he was cautious. The Frenchman went ahead without regard for the reefs. When the British captain arrived he saw the tri-color flying from a hill, and he was invited to come in and lunch on French soil.

Why Hens Don't Lay in Winter.

I have found it very difficult to make people understand that a hen cannot make eggs and feathers at the same time. She can lay while she is shedding her feathers, because there is then no drain on her system for any other purpose. But when the new coat of feathers is started she quits simply because she cannot do double duty—make feathers and eggs at the same time. When people learn this fact they will not expect eggs from a hen that is growing a coat of feathers. And then they may also learn how to manage their hatching and feeding so as to get eggs in the late fall and winter, when they want them badly.—Farm and Fireside.

Boiled Salad Dressing.

The following boiled dressing is very nice with tomato, jelly, fish salads and fresh green salad herbs and with a bit of onion or cress makes a delicious filling for sandwiches; it may also be used on bread or rolls when a butter famine shoots up prices: Beat two eggs together, add a tiny pinch of salt, two tablespoonfuls of sugar, half a scant teaspoonful of ground mustard and half a cupful of milk. Mix well and then stir in a quarter of a cupful of vinegar. Cook the mixture until it thickens, taking care to stir it constantly to prevent curdling. Upon removing from the fire let it cool and then add a few drops of olive oil.—New York Tribune.

Why Hens Don't Lay in Winter.

I have found it very difficult to make people understand that a hen cannot make eggs and feathers at the same time. She can lay while she is shedding her feathers, because there is then no drain on her system for any other purpose. But when the new coat of feathers is started she quits simply because she cannot do double duty—make feathers and eggs at the same time. When people learn this fact they will not expect eggs from a hen that is growing a coat of feathers. And then they may also learn how to manage their hatching and feeding so as to get eggs in the late fall and winter, when they want them badly.—Farm and Fireside.

Boiled Salad Dressing.

The following boiled dressing is very nice with tomato, jelly, fish salads and fresh green salad herbs and with a bit of onion or cream makes a delicious dressing for sandwiches; it may also be used on bread or rolls when a butter famine shoots up prices: Beat two eggs together, add a tiny pinch of salt, two tablespoonfuls of sugar, half a scant teaspoonful of ground mustard and half a cupful of milk. Mix well and then stir in a quarter of a cupful of vinegar. Cook the mixture until it thickens, taking care to stir it constantly to prevent curdling. Upon removing from the fire let it cool and then add a few drops of olive oil.—New York Tribune.

SENATE AFTER WICKERSHAM

"Instructs" Him to Forward Harvester Correspondence.

Washington, April 23.—For the second time this session the senate adopted a resolution calling on the attorney general to forward to it the correspondence bearing on the reorganization of the International Harvester company. The attorney general declined to comply with the first resolution. The measure adopted, presented by Senator Overman of North Carolina, is more imperative in that it "instructs" the official to comply.

BIG SURPRISE TO MANY IN BRAINERD

Local people are surprised at the QUICK results received from simple buckthorn bark, glycerine, etc., as mixed in Adler-I-ka, the German appendix remedy. Johnson's Pharmacy states that this simple remedy antiseptizes the digestive system, and draws off the impurities so thoroughly that A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY.
